SOARING HIGH

Dear Parents,

Always walk through life as if you have something new to learn, and you will. A good school planner and the knowledge to use it has countless benefits. A school planner is a tool that helps students organize tasks and activities. This year's planner entitled 'Sankalp', has been especially designed to develop basic skills of our learners, which are mainly Reading, Writing, Listening and Understanding. These skills have taken a backseat due to excessive use of mobile phone texting. Hence, our initiative this session would be to help students develop language intuition by building these essential components of communication. The month wise themes of the planner make an earnest endeavor to ingrain the fundamental habits through various activities planned. Therefore, our 'sankalp' (pledge) to install these principles in body and spirit.

Reading Skill

Reading is to the mind what exercise is to the body.
by Joseph Addison
